Memo

Introductory Notes - Members of Committee

Welcome to the 2007 Organizational Meeting of the Jack Hopkins Social Services Funding Committee (Committee) - The Committee holds an Organizational Meeting each year to decide upon the process for making the year's Jack Hopkins Social Services funding recommendations to the full Council. The meeting usually lasts at least two hours, but hopefully, by focusing on the possible changes, we can get it done in an hour and a quarter (or if necessary schedule another meeting). This memo and the accompanying packet material provide a brief history of the program, outline procedures, and highlight some of the issues that should be resolved before the agencies are invited to submit funding proposals.

        Date, Time, and Place
        Thursday, March 1, 2007 at 11:45 a.m. in the Council Library

Composition of the Committee – Elect a Chair - The Committee currently includes five Council members and two members from other city entities. The five Council members assigned by the President are: Diekhoff, Mayer, Ruff, Sabbagh and Sandberg. As a result of a motion by the Committee at the end of the process last year, the other two members of the Committee include a person appointed by last year's Chair from membership in the 2007 CDBG CAC (Dr. Anthony Pizzo) and a person appointed by the Community and Family Resources Commission (Hans Huffman).

Action: Elect a Chair

History, Level, Source & Location of Funds

The Common Council established what is now called the Jack Hopkins Social Services Fund as an amendment to the Civil City Budget for 1993. The funding for 2007 has been increased by $10,000 and the history of funding is as follows:

Year(s)	Budgeted Funds
1993	$90,000
1994 – 1995	$40,000
1996	$50,000
1997 – 1998	$90,000
1999- 2001	$100,000
2002 – 2004	$110,000
2005	$125,000
2006	$135,000
2007	$145,000

Since 1994, the monies for this program have come from the General Fund. In 2001, the monies were placed in the HAND department at the same time that department took over the responsibility for monitoring the social service grants from the Community and Family Resources department.

Monitoring Previous Grants and Agreements – Last Year's Resolution, Monitoring Report, Interpretation of Funding Agreements, and Extensions

Marilyn Patterson will present her monitoring report regarding the implementation of the Funding Agreement for the 23 agencies who received grants in 2006. These grants and Funding Agreements were approved with the adoption of Res 06-06. In accordance with the Funding Agreements, the agencies either submit claims to the HAND department and are reimbursed for appropriate expenditures, or enter into an obligation for covered items and arrange for the City to purchase it by credit card or purchase order. Four Funding Agreements, which all involved operational costs, provided for the

grants to wrap-up in 2007. Marilyn tells me that three other agencies sought extensions into this year as well.

The annual Resolution gives the Chair of the Committee authority to interpret the Funding Agreements, but no significant interpretations were made last year.

Action: *Approve the Monitoring Report*

Revisions to Procedures as a Result of Committee Comments and Agency Responses to Survey

The Committee held a Program Debriefing on June 7th and surveyed agencies later that month in order to evaluate the program and identify possible changes for this year. This packet, in some cases, proposes changes and, in other cases, merely mentions them for the purposes of discussion.

Copies of the Summary of the Program Debriefing and Survey are in this packet in order to refresh your memory about what we did last year and help you focus on what we should do this year.

Notes on the Survey: We received 16 out of a possible 35 responses to the Survey – from 14 who received funding, two who didn't, and one who didn't apply last year. The references to agency preferences later in this memo are based upon the 16 respondents and, in order to make the responses more clear-cut, count all "Not Sure" responses as against the stated proposition.

                 Summary of Responses to Applicant Survey

Purpose and Criteria

Purpose/Criteria - The criteria for allocating these funds have remained substantially the same ever since Councilmember Jack Hopkins first proposed them in 1993. They are as follows:
*   The program should address a previously-identified priority for social services funds (as indicated in the SCAN or other community-wide survey of social services needs);
*   The funds should provide a one-time investment that, through matching funds or other fiscal leveraging, make a significant contribution to the program; and
*   This investment should lead to broad and long-lasting benefits to the community.

The Committee approved a Policy Statement in 2001 that elaborated upon these criteria and other procedures and has since been revised.

Survey and Committee Comments
Survey: An overwhelming majority of responses indicated that the Criteria and Statement provided clear guidance in preparing an application. Two-thirds of the respondents said that the one-time funding requirement helped agencies implement their missions. However, some felt that the Committee did not apply the rule consistently for all agencies. *Note: Approximately 12 of the 23 awards included at least some operational costs. Of those 12 awards, approximately nine received about $50,000 for pilot projects (four of which were for amounts less than $2,500) and three received $28,000 for transitional or bridge-funding, which in total amounts to about 58% of the funding last year.*
Committee Debriefing: The Committee discussed the Criteria at the same time as the rating system, but spent much more time on the latter. In regard to the former, it affirmed the priority given to "emergency services" and "low income" populations (which were reflected in the Statement last year). Please see the *Ratings* and *Allocations* section below for your discussion on the rating process.

Packet: 1993 Jack Hopkins Letter Outlining Criteria
             Elaboration of Program Criteria and Explanation of Procedures.

Proposal: Request grantees to include a one-page self- devised evaluation of the program (as opposed to equipment and capital) funds. Hopefully, this would give you more information about the effectiveness of program funds which took up half of the grants and about 58% of the funds in 2006.

Issue: Perennial matter of the one-time funding limit and the funding of operational costs for pilot projects or for bridge funding. While noting the importance of this issue, staff does not recommend any changes this year.

Solicitations – Submittals – Assistance with Applications

Extent of Solicitations – The Council Office informs social services agencies about this funding program by:
- sending solicitation letters to agencies that have received or requested letters in the past and relevant agencies that appear on the Bloomington Volunteer Network Newsletter;
- having the United Way mention the solicitation in their weekly electronic Non-Profit Alliance Newsletter and send e-mails to their member agencies;
- notifying the media through a press release and through the offer of Public Service Announcements (read by Chair of the Committee), and
- posting forms that can be down-loaded from our web page.

Submittals – The letter to the agencies invites them to submit a two-page statement indicating how much is being requested, what it would be used for, and how this request meets the program criteria. It asks them to provide a one-page budget detailing the use of these funds and a financial statement for the agency as a whole. It also asks them to fill out two information sheets: one requesting contact information and the other requesting proposal summaries. Typically, the letter gives the agencies from three to four weeks to submit their applications.

Assistance with Preparing Applications/Technical Assistance Meeting –
For the past few years, the staff has held a technical assistance meeting for agencies to attend and receive help regarding their applications. About two dozen agencies showed up for the session last year. The Community and Family Resources Department and HAND departments have also offered to help with the preparation of applications.

Survey Responses and Committee Comments
Survey. Agencies found the application process simple and easy.
Committee. No need for change.

Packet: Solicitation Letter
        Program Funding and Contact Sheets

Assumption: Solicitation letter is adequate.

Assumption: The applications provide you with sufficient information to make a good decision.

Assumption: Staff provides adequate assistance to agencies when they prepare their applications.

Approve: Draft Solicitation Packet, dissemination plan, and technical assistance meeting.

Deliberations – Goals - Three Meetings

Goals and Procedures for Evaluating Applications
The following paragraphs set forth the goals and procedures for evaluating proposals and making funding recommendations:

Proposed Statement of Goals for the Hearings:
- Encourage applications that best meet our purposes by articulating clear guidelines and applying them consistently;
- Assure that Committee members make well-informed decisions;
- Support local social services programs by providing a positive environment when discussing and considering proposals; and
- Assure an efficient process that avoids unnecessary work.

Four Meetings to Make Recommendations – The Committee has met three times in the past in order to review the applications and make its recommendations to the full Council. At last year's debriefing, however, the Committee contemplated adding a meeting to discuss allocations before the formal allocation hearing. Those meetings include or would include a(n):
- Initial Review of the Applications *(new in 2004)*,
- Presentation Hearing,
- Pre-Allocation Discussion *(proposed for 2007)*, and
- Allocation Hearing (funding recommendations).

The following paragraphs briefly describe the activities that occur at each stage in order for you to decide whether anything should be changed this year.

Initial Review of the Applications – Becoming Familiar with Applications – Narrowing the Field - Clarifying Priorities The Council Office receives the applications (which have numbered from 20 – 35) and takes about 10 days to assemble, summarize, and distribute them to committee members and staff.

Since 2004, we have held a meeting to review applications about a week after you received the packet and about a week before hearing any presentations. This step provides an informal setting to share impressions early and ask questions of staff about the proposals and agencies. Last year, the meeting lasted about 3.25 hours and was conducted in the following order:
- notify the committee of conflicts of interest and declare ability to act fairly, objectively, and in the public interest,
- eliminate applications which were clearly inappropriate, and
- review the rest of the applications, raise questions for presenters to answer, and remove a few more from consideration.

In past years, the Committee also discussed:
- how to conduct public deliberation and inquiries, and
- its approach to allocation decisions (e.g. how to make that decision and handle partial-funding).

Survey Responses and Committee Comments
Agencies. The 2005 survey indicated that a majority of agencies would prefer that their application be cut before making a presentation if it was unlikely that they were going to be funded. This apparently was based upon the conclusion that they had better things to do with their time and did not see benefits in the form of a second chance at persuading you to fund their request or in the form of broadcasting their needs to the larger community.
Committee Debriefing: None. Typically the Committee has found value in sharing opinions and raising questions this early in the process. It eliminated eight of the thirty-five applications at this hearing.

Packet: Cover Memo for Application Packet
             Summary of Applications
             Agenda

Assumptions: Summary of applications serves your needs.

Assumptions: Order of business is fine.

Issue: Eliminating applications at the initial hearing allows you to cull clearly ineligible projects and also bring the number of presentations down to a manageable number. In the latter case, you would be concluding that those projects are just not a high priority for funding this year. Are there other criteria or other considerations you can articulate now regarding that decision?

Presentation Meeting – In the last few years, staff relayed your questions to the presenters and scheduled their arrival in waves. The 27 presenters were given five minutes to make their case with another five minutes to answer your questions. It lasted 2.66 hours.

Agency Responses and Committee Comments
Agencies. Approximately 75% of the agencies found the 5 minute presentation adequate. Some wanted better enforcement of the time period.
Committee Debriefing. None

Packet: Agenda for Last Year's Meeting

Allocation Hearing Recommendations - Resolve Questions and Adjust Allocation of Funds Last year the Committee members submitted ratings to the Council Office about a week after they heard presentations from the agencies. These ratings (on a scale of 0 - 5), comments (including proposed amount of funding) were then presented a few days later in the form of a table to Committee members. Soon after the ratings had been distributed, the Committee met for a third and final time to make recommendations regarding the allocation of funds. The challenge for the Committee at this hearing has always been to arrive at a method for allocating the funds.

Survey Responses and Committee Comments

Agencies. The ratings and allocations deliberations were the only areas where a majority of the respondents wanted to see a change. About two-thirds of them said the rating scheme was not clear, consistent, and equitable and a little more than half said the allocation hearing was similarly flawed. The comments said the Committee members were using "different modalities" and were "not on the same page."

Committee Debriefing. After a good discussion, it appeared that the Committee favored holding a pre-allocation meeting where members could informally discuss their preferences and prepare for the formal hearing. Some suggested that the rating numbers include gradations of 0.5. Others suggested using the CDBG approach of applying a certain value to each criteria and summing the values to arrive at a total score.

Packet: **Agenda for Last Year's Allocation Hearing**
Summary Request Sheet
Guide to Standardized Ratings
Rating Worksheet
Final Ratings and Allocations

Proposal: *Hold a pre-allocation meeting to discuss allocation decisions prior to the cable-cast meeting.*

Issue: *Consider adopting a 0 – 5 rating scale with gradations of 0.5 and with meanings attached to each number in order to help establish a more formal and uniformly-applied rating system. It was introduced last year as a suggested Guide to Ratings. It would set 3.0 as the minimum score for funding and, therefore, result in higher average scores. Another change would provide for 0.5 increments in scores. Are you interested in adopting this rating system? Please note that CDBG uses a point system for rating program requests and an aggregate dollar amount to decide physical improvement allocations.*

Issue: *Consider tying proportion of funding to level of ratings in order to avoid the "two modality problem" (i.e. ratings versus average allocations). This would mean agreeing at the pre-allocation hearing to fund applications with ratings of 4.5 or higher (or whatever score you choose) at a high percentage of eligible requests (perhaps 90% -100%) ; 3.5-4.49 (or, again, whatever score you choose) at a mid-level percentage of eligible request (perhaps 80%-90%); and 3.0 – 3.49 (or, again, whatever score you choose) at a lower percentage of eligible request (perhaps 70%-80%). This approach may work better with applications for program funds than applications for physical improvements and, given our lack of maximum requests, may unduly limit you in regard to large, highly rated requests. It will also not resolve funding to the penny, but will provide resolve questions about the connection between ratings and funding.*

Issue: *Partial Funding/Matching Funds –These decisions are often made without good information about how the adjustment would affect the feasibility of the project. How does the Committee want to address those situations this year? If you need more information from the agency, what will you need and when will you need it?*

Proposed Schedule - Traditionally the allocation phase for the program begins just after the CDBG funding is known (March) and runs to mid-June. Then the funding or implementation phase runs from July to December and sometimes into the next year.

> **Survey Responses and Staff Comments**
>
> **Agencies.** Two thirds of the respondents felt the June – December reimbursement schedule served their needs. A few respondents surmised that the schedule works well with requests for equipment and capital projects, but a longer schedule works better for reimbursement of program (operational) costs, where the grants often go into the next year.
>
> **Staff.** The HAND department traditionally favors an early start in order to give agencies more time to spend their money before the end of the year.

Here are the critical steps in the allocation phase of the program and a proposed schedule:

Packet: Calendar for March through June, 2007.

Funding Agreements and Their Implementation - We require agencies to execute a Funding Agreement with the City in order to assure proper use of the funds. The Agreement describes the purpose of the funds and sets a time frame for spending the monies (which can be extended by the Director of the HAND department, whose staff is responsible for monitoring the agreement). The Agreement also requires agencies to repay the funds if the money is not used in accordance with the agreement. The HAND department implements these agreements on the part of the City either by reviewing claims submitted by agencies and reimbursing those agencies or by authorizing payment directly to vendors. The Committee Chair is authorized to interpret the funding agreement.

Survey Responses
Agencies. Agencies, on the whole, thought that the reimbursement system worked well and did not impair their ability to carry out the agencies' missions. One thought it created cash-flow problems.

Committee Debriefing: None.

Packet: Copy of current Funding Agreement

Proposal: Occasionally agencies seek reimbursements into the next year. This year a few will not be done in time for the Committee to request a reappropriation of funds in the event any are returned unspent. This year I propose putting a deadline of April 4, 2008 for the submission of claims. This would mean that the Chair of the Committee, and not the Director of HAND, would determine whether to extend the claims period beyond that date.

Evaluation of Program: For the past two years, the Committee met in early June to discuss that year's procedures and the agencies were given a survey of their impressions of the process later that month.

Proposal: Continue the practice this year.

Coordination with Other Funding Sources – In the past, the Administration and Council and others have taken various steps to coordinate the funding of social services programs.

Issue: Are there any steps the Committee would want to take this year or next year?

Review of Last Year's Grants

Council Resolution Allocating Funds, Approving the Funding Agreements, and Authorizing Other Procedures

Report of Last Year's Grants – Forthcoming

Summary of Interpretations - None

RESOLUTION 06-06

AUTHORIZING THE ALLOCATION OF THE JACK HOPKINS SOCIAL SERVICES PROGRAM FUNDS FOR THE YEAR 2006 AND OTHER RELATED MATTERS

WHEREAS,   the Common Council established the Social Services Funding Committee (Committee) in 1993 to make recommendations to the entire Common Council regarding the allocation of discretionary social services funds and, in 2002, named the program in the honor of Jack Hopkins, who was instrumental as a council member in the establishment of this funding program; and

WHEREAS,   according to Resolution 02-16, the Committee serves as a standing committee of the Council with five members from within the Council appointed by the President of the Council and with as many as two members added by the Committee from other city entities; and

WHEREAS,   this year the Committee includes council members Chris Gaal (Chair), Tim Mayer, Dave Rollo, Andy Ruff, and David Sabbagh, along with Community Development Block Grant Citizen Advisory Committee member, Tony Pizzo and Community and Family Resource Commission member Shaunica Pridgen; and

WHEREAS,   this year the City increased the funding from $125,000 to $135,000; and

WHEREAS,   the Committee held a preliminary meeting on March 9, 2006 to establish the program procedures for the year; and

WHEREAS,   at that time, the Committee clarified and approved a Policy Statement, which set forth and elaborated upon the following criteria for making their recommendations:

1. The program should address a previously identified priority for social services funds (as indicated in the *Service Community Assessment of Needs* (SCAN), the City of Bloomington Housing and Neighborhood Development Department's *2005-2010 Consolidated Plan* or any other community-wide survey of social service needs); and
2. The funds should provide a one-time investment that, through matching funds or other fiscal leveraging, makes a significant contribution to the program; and
3. This investment in the program should lead to broad and long lasting benefits to the community; and

WHEREAS,   by the deadline at 4:00 p.m. on April 10, 2006, 35 agencies had submitted applications seeking approximately $268,000 in funds; and

WHEREAS,   on April 27, 2006, the Committee met to discuss and eliminate applications from further consideration and on May 11, 2006, the Committee heard presentations from 27 agencies; and

WHEREAS,   in the days following the presentations, the members of the Committee rated those proposals on a scale of 0 to 5; and

WHEREAS,   on May 22, 2006, the Committee recommended funding 23 agency programs with ratings of 2.57 or higher; and

WHEREAS,   the 23 agencies receiving funds understand the funding agreements, which have been prepared for each grant and agree to abide by the terms of those agreements; and

WHEREAS,   the staff of the HAND department will arrange for the disbursement of the grant funds pursuant to the funding agreements, which will be interpreted by the Chair of the Committee; and

NOW, THEREFORE, BE IT HEREBY RESOLVED BY THE COMMON COUNCIL OF THE CITY OF BLOOMINGTON, MONROE COUNTY, INDIANA, THAT:

SECTION 1. The Common Council now allocates one hundred and thirty-five thousand dollars ($135,000) set aside for the Jack Hopkins Socials Services Funding program in 2006 to the following agencies for the following amounts and in accordance with the funding agreements approved in Section 2:

City of Bloomington

ATTEST:

_____
REGINA MOORE, Clerk
City of Bloomington

SYNOPSIS

This resolution brings forward the recommendations of the Jack Hopkins Social Services Funding Program Committee. The principal task of the Committee is to recommend funding for local social services agencies which offer proposals consistent with program criteria. Over the last 13 years (1993 – 2005), the City has expended in excess of $1 million dollars to local social services programs and, in 2006, decided to increase the annual amount of funds from $125,000 to $135,000. The resolution allocates the social services funds to 23 agency programs, approves the funding agreements with these agencies, accepts the report of the Committee, and authorizes the chair of the Committee to resolve any questions regarding the interpretation of the agreements.

Memorandum

In attendance: Chris Gaal, Tim Mayer, Marilyn Patterson, Dr. Anthony Pizzo, Dave Rollo, Andy Ruff and David Sabbagh. (Council Office: Dan Sherman and Stacy Jane Rhoads). [Absent: Shaunica Pridgen].

I.   Introduction

Chris Gaal called the meeting to order. He opened the discussion Item One on the *Agenda*: a review of what worked well in 2006 and what warrants improvement next year.

II.   2006 JHSSF Program: Year-In-Review

A.   The Allocation Process

Gaal and Mayer asked Dan if he had heard any feedback from agencies. He responded that he had not, but understood through Marilyn that many agencies were mystified by the allocation process and would like to see an approach to funding that is more consistent.

Marilyn offered that, in the course of CDBG monitoring, she received feedback from agencies who received 2006 JHSSF funding. For the most part, these agencies felt that the Committee made its partial funding allocations without regard to itemized priorities as ranked by the agencies. This criticism applied to those funded at the lowest levels.

Mayer stated that he feels that the Committee, as a whole, does not want to offend anyone and works to fund as many agencies as possible.

Sabbagh suggested that the blind approach of CDBG may be the more prudent method of allocating JHSSF funds. Dr. Pizzo agreed.

Dan stated: "Every year, there is a divide in the Committee between those who think they should fully fund a few agencies and those who want to spread the money around to as many agencies as possible." From his perspective, deliberations look disorganized and messy this year.

Ruff said that he consulted many people who said the *Allocation Hearing* was not disorganized, but appeared to be truly deliberative and democratic. Mayer pointed out that the people Ruff consulted were not those who applied for funding.

Gaal clarified the information relayed by Marilyn: "People see us coming up with rationales for funding but the rationale does not have any relationship to their prioritized list and therefore, does not make sense."17

Ruff offered that the allocation process only looks disconnected if the agencies assume that the Committee will use the prioritized list to make partial funding recommendations. The Committee might want to use the itemized information in making decisions and providing such information is easy for agencies to do. He does not see the two as disconnected.

Dr. Pizzo stated that CDBG uses a 50-point scale to blindly rate applications. The JHSSF Committee could approach evaluation in the same way. CDBG employs five different categories, each of which is ranked 1-50, plus five discretionary points. Sabbagh stated that he is not convinced that using a scale 0-50 would make a difference.

Dan pointed out that the CDBG process might not work so well with JHSSF funding. With CDBG, just about all requests are exactly $25,000. With JHSSF, the amounts are variable and the Committee would likely know which agency they were ranking based on the amount requested -- the process would not be truly blind.

Dan also pointed out that the Committee referred to documents that were not available to the public, such as averaged allocations, individual rankings and Sabbagh's spreadsheet. This confused observers.

Dan further suggested that if the Committee cannot come up with a clean process for allocating funds, they should not do so on camera. He suggested that the Committee might hold a meeting after all ranking are submitted, but before the *Allocation Hearing* to discuss the best way to proceed. The public would be invited to this meeting. Then, on camera, the Committee could work through the process and spend the rest of the time talking about the applications, the decision-making process and could call upon the public to help meet the needs that the Committee was unable to meet. The Committee could really use the *Allocation Hearing* as an occasion to address something that is more positive and more related to social services needs, rather than spending the entire time working out the final penny.

Sabbagh pointed out that he proposed a spreadsheet of allocations. However, he did not see that any other Committee member came up with a proposal, a spreadsheet. Gaal said that many Committee members came to the meeting with proposals; they were just not in spreadsheet form.

Dan stated that last year, the average allocations worked better – Mike Diekhoff came to the meeting with a proposal that the Committee cut all applications below "3" and allocate the rest based on averaged allocations.

Sabbagh stated that partially funding everybody is not the best way to "get the best bang for your buck." Talking to people in HAND, he got the same impression.

Ruff pointed out that the Committee made several cuts before the allocation hearing and therefore, did not partially fund *everyone*.

Gaal summarized: "Dan is proposing that the Committee work out the process in advance. If we do that, then the *Allocation Hearing* becomes a formality, rather than the democratic, sausage-making process that Ruff liked. That is a tough way to do it."

Dan suggested that the Committee might also decide in advance which of the partially-funded agencies could actually implement their programs with partial funding. This would make for a more accurate and finely-tuned allocation process than in the past.

Gaal suggested that the Committee members submit their proposed allocations in advance. Ruff pointed out some provided this information this year. Dan emphasized that this recommendation would still not resolve the partial v. fully funding dilemma.

Gaal said that the response to those who did not like the process is "that there is just a philosophical difference of opinion on the Committee about partial v. full funding and if the process of partial funding was messy and did not reflect the itemized request made by the applicants, then this 'messiness' is a reflection of a philosophical divide in the Committee."

Dan suggested that the *Allocation Hearing* bears very little relationship to the criteria and he would like to know more about how the Committee makes its decisions. Sabbagh and Ruff clarified that the *Allocation Hearing* does bear a direct relationship to the criteria since all rankings are predicated on the criteria. Ruff said that ratings and allocations are directly related.

B. The Ranking System & Criteria

Ruff suggested that the Committee utilize a more refined, "half-number system" proposed earlier by Dr. Pizzo.

Mayer state that it would be helpful to have a CDBG-type system whereby, if an application meets a certain criterion, then it is granted a certain number of points.

Stacy Jane suggested that the Council Office tried to do that this year, with its *Standardized Rankings – A Working Guide*[1] and pointed out that the problem with such a scheme is that the Committee does not rely solely on the criteria to make its decisions -- it also relies on other factors, such as the context of all applications.

The Committee reviewed the *Standardized Rankings – A Working Guide* as submitted by the Council Office. Gaal stated that it was a good guideline and he tried to use it, but cannot say that he was always true to it in his ultimate allocations.

---

[1]

Standardized Rankings – A Working Guide
"0" Does not meet any criteria <u>and/or</u> does not primarily serve City residents.
"1" Minimally meets only one criterion and primarily serves City residents.
"2" Minimally meets only two criteria and primarily serves City residents.
"3" Minimally meets all three criteria and primarily serves City residents.
"4" Fully meets all three criteria, primarily serves City residents and addresses <u>one</u> of the Committee's elaborated priorities (service to low-income residents or the provision of basic human needs).
"5" Fully meets all three criteria, primarily serves City residents and <u>both</u> targets a low-income population <u>and</u> provides a service addressing basic human needs.
19

Dr. Pizzo stated that the Committee may need to expand the criteria and reviewed the CDBG process for attaching a number to a discrete criterion. Dr. Pizzo suggested that the Committee expand the criteria and quantify each one.
Dan asked what else entered into each Committee member's decision-making process?

Gaal explained that for him, emergency services ranks highly and should be made its own criteria. If a program addresses emergency services, then it should rank at least a "1." Also, he looks at whether the request is for bridge funding and if there is some "liability factor" that may compromise the success of the program.

Sabbagh echoed that he considers emergency services in ranking applications.

Mayer stated that prior performance should be a criterion. That was the major stumbling block for New Leaf – they are well-intentioned but lacked a business plan.

Sabbagh added that a well-established, successful agency bodes well in his ranking. JHSSF program has so little money to distribute, that he wants to make sure it will be used responsibly. He stated that he has full faith in established agencies such as Middle Way House, the Community Kitchen and Hoosier Hills Food Bank.

Mayer pointed out that such a strategy of funding only established agencies does not afford much room for new initiatives/ agencies.

Ruff asked: What sort of a track record did Mother Hubbard's Cupboard have when it first received JHSSF funding?

Mayer responded that the Cupboard did not have much of a history when it was granted funds, but that it asked for a modest sum to incorporate.

Dan asked how the Committee might handle duplication of services.

Ruff asked: "If [according to the *Rankings Guide*] anything below a '3' doesn't meet all the criteria, why are we funding the project at all?" The Committee discussed that it might not be able to allocate all funds if it eliminated all applications that ranked below a "3."

Rollo asked: "If some proposals were ranked '0,' why were they not eliminated early on?" The Committee responded that such proposals were not eliminated because there was not agreement that the application should be eliminated.

Sabbagh asked if the Committee ever decides not to spend all JHSSF money in a year and return a portion to the JHSSF fund? Dan replied that the Committee has always allocated all its funds each year, with the exception of a project that was funded, but not implemented.

Ruff observed that if the Committee is going to hold true to the rating schema, then it should make it clear to agencies than anything below a "3," will not get funded. Agencies should understand that if the Committee decides on a funding scheme that fully funds a few agencies rather than partially funding many, some agencies will not be funded.

20

Mayer instructed that the process is likely confusing in the minds of agencies because they compare it with that of CDBG. CDBG is much more formal and controlled.

Dan pointed out that this year was the first in which the JHSSF program has more money for social services agencies than CDBG. Comparing the two programs, which is more transparent, accountable and formal? He asked if the Committee still likes the criteria and if the criteria sufficiently get at the priorities of "emergency services" and "service to low-income populations."

Dr. Pizzo suggested that the Committee could add these as these two priorities as distinct criteria, in addition to the current three.

Dan relayed that in last year's survey, the Committee asked agencies if partially funding many than fully funding a few was prudent? Of the eight agencies that responded, four responded, "yes"; two responded, "no"; and two did not comment.

Dan asked if it would make sense to grant each criterion a weight, like CDBG. This might be helpful as some Committee members may grant emergency services more significance than others.

Sabbagh said Dan was making the process more complicated than it needs to be.

Gaal stated that the only way to remedy the problem of the *Allocation Hearing* is for Committee members to take a more active, engaged, approach.

Mayer pointed out that in the CDBG program, after members submit allocations, the Committee meets again with staff. Agencies can sit in on the meetings if they wish. It is public, but not televised. One of the rules of the meeting is that members of the public are not permitted to speak.

C.   Adding a Pre-*Allocation Hearing* Meeting in 2007

Dan stated that the foregoing discussion raises two points: 1) The Committee should foster better communication between Committee member before the *Hearing*; (Mayer called this the "opaque" method); and 2) the Committee should formalize the communication/decision-making process with another meeting.

Ruff stated that the above point #1 is not transparent and is not practical – Committee members cannot reasonably make personal telephone calls to each of the other Committee members to discuss his/her rationale and strategy. A meeting would work better. Gaal reinforced that another meeting prior to the *Allocation Hearing* might encourage people to communicate better and render a few more proposals for allocations.

D.   Application Presentation to Committee

Dan asked about other elements of the funding process. Did the Committee members like the way the Council summarized and bound all applications? All responded, "yes." Sabbagh pointed out that he relies primarily on summaries, with only occasional consultation of the application itself.

E.   Survey

Dan stated that the Office will send a survey to applicants again this year before the technical assistance meeting and asked for feedback on the survey.

Mayer said that the survey should go out directly after the *Allocation Hearing*. Sabbagh echoed that the Committee may get more responses if it sends it out soon after the *Allocation Hearing*. If the survey is sent closer to the time of the Allocation Hearing, the process will be fresh in people's minds and the Committee will realize a higher and more reliable response rate.

Dan stated that the Council Office strives to distribute the survey in a timely manner and to make the survey simple to complete. This year, the Committee might wish to include the option to just respond to an open-ended question to allow respondents a free-form space to offer feedback without going through the entire survey.

Sabbagh stated that surveys have limited value and asked if CDBG sent out surveys. Marilyn responded, "no."

III.   Appointment of Two Non-Council Members of the 2007 JHSSF Committee

Dan pointed out that last year the Committee authorized the Chair to appoint the two non-Council members of the Committee. This saved the Committee considerable time as it did not spend time working out who was on the Committee before it begins its work. Mayer moved to grant the current chair the authority to appoint the two non-Council members to the 2007 Committee. Sabbagh seconded and all present agreed.

IV.   Meeting *Memoranda*

Dan pointed out to the Committee that *Memoranda* of the previous four meeting have been prepared and suggested that the Committee grant the Chair the authority to approve the *Memoranda* once all have had an opportunity to review. Sabbagh moved and the Committee agreed to grant Chair Gaal such authority. The Committee will review the notes and give Gaal feedback by Wednesday, 14 June 2006. The summary for tonight's meeting will be prepared by 14 June 2006 and the Committee will have until 21 June 2006 to give Gaal their feedback.

V.   Other

Dan reminded the Committee that the 2006 JHSSF Report will be considered by the whole Council on June 21 and that Committee members should sign off on the Report.

Dan also informed the group that Lisa Abbot will conduct the HAND Technical Assistance meeting on 27 June 2006 at 8:30 am in the McCloskey Room as Marilyn will be out of town.

Marilyn closed the meeting by making it clear that some who received partial funding were indeed very happy and who were greatly benefited by a partial allocation.

VI.   Adjournment

The meeting adjourned at 7:10 pm.   22

5. Please comment on the criteria and/or the Committee's application of the criteria.	The criteria are very clear and that helped me prepare the application. I like the criteria's focus on previously established needs and consistent funding of social services. The "one-time" funding requirement could be restrictive, because sometimes it's hard to just fund our basic operations and serve the clients who come to us. However, I like the flexibility this requirement contains: to help fund a new staff position or help an organization that's in a unique situation. It's also beneficial to have a funding source that will fund equipment purchases.	I thought the criteria were clearly described and referenced through the COC and SCAN. You linked us to both of those documents so there shouldn't be any confusion as to what was considered eligible a appropraite for funding.	It is good to have the specific criteria related to this particular set of monies. We can't always meet the criteria but it does make it easier to make a request if we do. :)	I feel that the one time investment was very confusing because past history shows the funding is used for salaries which I don't feel are one time investments. (however in many cases very valuable) Also the term broad and long-lasting community benefit is not also confusing because the long lasting does not apply to many of our most in need.	The criteria are very well explained and easy to understand. They were obviously created by people who have great experience with social service funding.		It appears that some members of the committee may have been advancing their own personal agenda in questioning and selection of those receiving funding, giving a pass to some agencies who are well connected while scrutinizing others.
6. This July-December reimbursement time frame serves your agency's needs.	Strongly Agree	Agree	Not Sure	Strongly Agree	Strongly Agree	Agree	Strongly Agree
6b. If the current time frame for submitting application and/or receiving reimbursement does not meet your needs, please explain.			We do try to plan ahead for grant monies we hope to pursue so it is often that we will have other funds before we apply for Jack Hopkins.				

Orginally, the fund was for new initiatives. That was fine as a criterion, but the committee did not adhere to the criterion consistently, and, in fact, was very arbitrary in its decisions. That, of course, was a problem. Also, orginally, the fund was meant to provide large sums of money to really help make a big project happen. It required the committee to decide what the community's greatest needs were. That approach unraveled in year three, I think. As a starter of big projects, the approach suited me. However, like all the other agencies, we are having difficulty currently sustaining our core programs. It was nice to be able to apply for funds to help keep our services for children and youth going. We asked for less than we need out of consideration for the other agencies, and then we got less than we requested. So, of course, the grant amount was not suffcient. It is inevitable that when your agency doesn't score near the top, you wonder why	I think the criteria are clear and fine. I don't think the committee sticks well to the criteria. It seems that some agencies come to the Council for "bridge" funds every year, with the same story. It's my understanding that bridge funds would only qualify under extreme situations, not the same request year after year. Other than that, I think the criteria are applied well and fairly.	The grant is truly addressing and meeting a social service need in our community – to provide enriching programs and adult role models to at-risk youth living in low-income communities. We are able to provide a highly requested service to our families and members through this grant opportunity. We appreciate the grant's freedom to use funds for salaries and operations, which is critical in providing quality youth programming.	
...(since your agency is the best, most effective, most important and necessary agency in the world), and I do wonder why. In my opinion, the committee has failed to narrow its interests sufficiently. As a result it disperses some very small amounts of money-sometimes to agencies on the periphery (or not even) of SCAN identified needs. Middle Way House has been a fairly consistent recipient of Jack Hopkins funds and I am grateful for that. I don't think any of our requests have been turned down. So, my comments should be seen as a relatively dispassionate response to questions about the criteria and the process, not a as a complaint with respect to how we have faired. I think the committee should clarify its priorities and should set a lower limit on the amounts it awards per agency.		...We appreciate the grant's freedom to use funds for salaries and operations, which is critical in providing quality youth programming.

I think different uses would dictate different disbursement schedules. July to December disbursement is more consistent with the specific piece of a big project approach, where the funds are spent at once rather than over time. I applied this year, for salary support for a key staff position that is losing its funding and the disbursement schedule was problematic because I have to use the funds in conjunction with other government funds that have to be spent first.			

				The criteria seemed fine. As to the committee application of the criteria that is difficult to judge without being aware of the internal review discussions. Several that you eliminated I too would have done so based on the written criteria. But there was at least one not funded that surprised me.	I thought the process was very well-thought out. The information session was helpful and clear. The application was easy to complete. Staff support was exceptional. Thank you for making this opportunity possible!

This is more and more the case with government grants. It creates terrible cash flow issues. It also intimates a lack of trust in the agency. While I can almost see this when the funding source is very distant from the recipent, I cannot understand it at the local level, where the agencies should be known to the funder.

11b. If you did attend, please comment on the usefulness of this assistance meeting and offer any suggestions .		I thought it was all outlined very well in the proposal. The technical meeting was redundant but for those unaccustomed to writing grants, I can see where it could have engendered more comfort in the proposal writing.	Not particularly useful but we have received prior Jack Hopkins funds; may be more useful if major changes implemented or if organization new to Jack Hopkins.		It was very useful, especially when there was discussion over a previous application.		
12. Any suggestions for improving the application procedure?	I really appreciate the simplicity and straightforwardness of this application. It is a real treat for those of us who write grants to complete a simple application that is also fair and just asks the right questions. Thank you.	None			None!		
13. Every year, the demand for JHSSF exceeds the supply by 2 or 3 fold. Every year, the Committee is faced with the wisdom of fully funding a few agencies or partially funding more. In your opinion, partially funding many requests is more prudent than fully funding a handful, provided that the partially-funded agencies are still able to implement their proposed program with partial funds. My staff member attended, but she knew how the program worked before she went. Nevertheless, I seem to recall her saying the presenter was good. 19. Please comment on the deliberation.		The deliberations did not engender confidence in the process for allocation. It didn't appear that the council members were on the same page. It was very disappointing to see the confusion at the end of the process as it felt that prior proceedings and care weren't valid. It also felt that some agencies requests were not fully considered since the council members were rating with different modalities.	It seemed that the deliberations should have taken place without agency representatives present, as the ins and outs are not clear to us (OK, not clear to me)(nor do I particularly want or need to know such details). If there are questions for agencies, they should be answered before the deliberations.	I have no knowledge of how our program was rated, so I don't know if the rating was clear, consistent or equitable. Likewise I am unfamiliar with the funding process used by the Committee so I cannot make comment on that either.	I am sure the delibertaions were fine, we were not involved however, because our application was not approved for further consideration.	
20. Please offer any other comments or suggestions.		I see the process improve from year to year and appreciate the effort the council puts into continuously looking at the allocations process and making the best decisions possible for our community.	Thanks for asking…		The grant committee and process was very thorough. I was impressed by the committee's ability to make decisions. I also found the follow-up very helpful. Thank you for your hard work!	

It is not clear to me how the proposals were rated, why one agency's need or proposed use was rated higher than another. I would also have to say that I am not sure what the committee members really know about the agencies. There are agencies that put out a great deal of effort with good results for very little money. Then there are agencies that put out a great deal of effort with good results for considerably more money. There are very complex agencies and there are simple agencies. There have never seemed to me to be an understanding that you can have an inadequate budget at $2 million and an adequate budget at $200,000. No one actually looks into how the agencies use their resources.	It seemed a bit haphazard this year. In years past, there was a cut off point and then they started at the top and fully funded several, than started partial funding. This year however, it seemed to be even more loose and subjective. It seemed that agencies farther down on the list received a higher percentage of funding requested than some of the agencies who scored higher. Maybe that isn't accurate, but it was all confusing and it sure seemed odd	Presentations may seem to be repetitive and contained in the grant proposal. Deliberations may make some agencies, especially those who are new applicants or understaffed, feel the pressure of competition.	The Allocation Hearing was painful. It was obvious that the members of the committee were all using different criteria and standards to rate agency requests. The 0-5 rating scale is flawed and should include partial ratings (4.5, 3.5, etc). I feel that the process would run a lot soother if all committee members were on the same page as far as how to rate agency requests.
There is never enough money for legitimate needs. Given that, I think it would be best if priorities were articulated by the committee, if those priorities were disseminated before applications were submitted, and if the priorities guided decision-making, in a clear and transparent way, so that there were fewer proposals to consider as the process moved forward. Criteria should include not just the needs to be addressed but characteristics of the agencies considered eligible to receive funding. For example, if the committee is ultimately going to reject a request because it thinks the agency is carrying too much debt, an acceptable debt load should be articulated as a criterion.		I would like information on ways to promote or say thank you to "Jack Hopkins" in a public presentation, i.e. an article in the Herald Times. I am wondering if there are any prohibitions or protocol to publicizing the grant money and what is used for. Maybe this information could be included in an email or mentioned in the technical assistance meeting.	5 minutes is not enough time for agency request to be fully explained and understood. 10 minutes would be much better. To accommodate for this extra time the day when agencies present could start sooner or be broken up into 2 days.

Someone can write a great application & not get funded as decisions aren't made on merits of project as written on application but who knows who, who likes who, in terms of agencies & causes they support. -others turn in lacking application but get funded anyway	Very thoughtful and careful—there was a good balance on the committee of different opinions.	I'm not sure about the usefulness of the presentations, but I struggle to come up with an alternate suggestion. I do feel like a more precise system for timing the presentations could benefit the process since the time available is limited and should be evenly distributed		There were 2 committee members that seemed to sometimes not understand/hear or comprehend the answer to a question but didn't follow up with another question. It seemed difficult for some presenters to be heard for whatever reason. I'd be interested to know the role played by committee members who didn't attend the entire presentation evening.	I watched the deliberations on tape. It is very difficult to allocate limited resources to a larger number of organizations. The weighting system makes sense, although I don't know enough about how the relative weights were assigned to begin with. Some members are more familiar with certain long-standing organizations, but may not be as familiar with others. The application write-up was probably very important to their discussions.
I don't know how to get politics out of the process. Need to have score for quality of project based on application content & another score for presentation & gneral merit in community.		I know that this survey is confidential, but it seems like you would receive more honest and useful feedback from agencies if it was truly confidential. For example, in our case, the first few questions make it very clear what agency we are.

Subject: Social Services Funding

Most of us have discussed the question of social services funding, either in the Social Services Committee (which has met twice) or individually. I would like to summarize the discussions of the committee so far, in order that we may act soon to take final action on the matter.

The committee reached a consensus on the following criteria to be used for choosing appropriate programs for funding in the 1993 budget year:

1. The focus should be on previously identified priority areas.
2. Programs or projects should be such that a one-time investment will make a substantial difference.
3. Priority should be given to projects or programs where investments now will have a positive long-term spillover effect (such as reduced susceptibility to other diseases, decreased absences from school, reducing lost time for sick child care, etc.)
4. Capital should be leveraged wherever possible by watching from other sources.

The Social Services committee concluded that the Community Heath Program meets all these criteria. Appropriation of the available 1993 social services funds for the Public Heath Nursing Association would enable the PHNA to carry out a drive for complete immunization of all children in Bloomington and Monroe County and enable the consolidation of three separate locations into one building, which would save substantial funds in the process. The possibility of leveraging the investment through Community Foundation's Lilly Endowment grant is being pursued. In addition, a substantial additional appropriation from Monroe County makes the Bloomington investment particularly timely and effective.

I would appreciate your comments before any final action is taken to introduce an appropriation ordinance for this purpose.

Jack Hopkins Social Services Funding Program

Elaboration of the
Three Criteria for Evaluating and Awarding Grants
And
Other Policies

Elaboration of Three Funding Criteria

In 1993 Jack Hopkins wrote a letter to the Committee outlining a set of criteria for the use of these social services funds. Aside from referring to a more recent community-wide survey, those criteria have served as the basis for allocating the funds ever since. The following is an elaboration of that policy approved by the Committee.

1. **The program should address a previously identified priority for social services funds (as indicated in the *Service Community Assessment of Needs* (SCAN), the City of Bloomington Housing and Neighborhood Development Department's *2005-2010 Consolidated Plan* or any other community-wide survey of social service needs);**

    "priority for social services funds"

    The Common Council has used these funds for programs that provide food, housing, healthcare, or other services to city residents who are of low or moderate income, under 18-years of age, elderly, affected with a disability, or otherwise disadvantaged.

    > *City Residency - Programs must primarily serve City residents. Individual programs have occasionally been located outside of the City but, in that case, social services funds have never been used for capital projects (e.g. construction, renovation, or improvement of buildings).*

    > *Low income - Programs primarily serving low-income populations are given a high priority.*

    > *Emergency Services – Programs primarily providing emergency services (e.g. food, housing, and medical services) will be given a high priority.*

www.bloomington.in.gov
email: council@bloomington.in.gov

2. The funds should provide a one-time investment that, through matching funds or other fiscal leveraging, make a significant contribution to the program; and

    a.   "one-time Investment"

This restriction is intended to encourage innovative projects and to allow the funds to address changing circumstances. For those reasons, it discourages agencies from relying on these funds from year to year and from using these funds to cover on-going costs, particularly those relating to personnel.

Operational Costs
    Such costs are not generally considered a "one time investment," but will be eligible for funding in two circumstances: first, when an agency is proposing a pilot project and demonstrates a well developed plan for funding in future years which is independent of this funding source; or second, when an agency demonstrates that an existing program has suffered a significant loss of funding and requires "bridge" funds in order to continue for the current year.

Renovation versus Maintenance
    Costs associated with the renovation of a facility are an appropriate use of these funds, while the costs associated with the maintenance of a facility are considered part of the operational costs of the program and, when eligible, will be given low priority. When distinguishing between these two concepts the Committee will consider such factors as whether this use of funds will result in an expansion of services or whether the need was the result unforeseen circumstances.

Conferences and Travel
    Costs associated with travel or attending a conference will generally be considered as an operating cost which, when eligible, will be given low priority.

Computer Equipment
    Generally the costs associated with the purchase, installation, and maintenance of personal computers and related equipment will be considered an operational cost and, when eligible, be given low priority. However, the costs associated with system-wide improvements for information and communication technologies, or for specialized equipment may be considered a one-time investment.

b. **"through matching funds or other fiscal leveraging, make a significant contribution to the program"**

In the words of Jack Hopkins, who originally proposed these criteria, investments "should be leveraged wherever possible by matching from other sources." Agencies may demonstrate such leveraging by using matching funds, working in partnership with other agencies, or other means.

Applications from City Agencies and Other Property Tax Based Entities
> *Over the years the Council has not funded applications submitted by city departments. This appears to be based on the theory that the departments have other, more appropriate avenues for requesting funds and should not compete against other agencies, which do not have the benefit city resources at their disposal. And, while never clearly stating they were ineligible, the Council has also not generally funded applications from agencies whose primary revenues derive from property taxes.*

3. This investment in the program should lead to broad and long lasting benefits to the community.

   "broad and long lasting benefits to the community"

   Again, in the words of Jack Hopkins, "priority should be given to projects or programs where investments now will have a positive, long-term spillover effect (such as reduced susceptibility to …diseases, decreased absences from school, reducing lost time (from work) .., etc).

   Funding of Events and Celebrations Discouraged
   > *Historically the Council has not funded applications that promote or implement events or celebrations. It appears that this is based upon the conclusion that these occasions do not engender the broad and long-lasting effects required by this third criterion.*

Other Policies and the Reasons for Them

Agency acting as fiscal agent must have 501(c) (3) status

The agency which acts as the fiscal agent for the grant must be incorporated as a 501(c)(3) corporation. This policy is intended to assure that grant funds go to organizations: 1) with boards who are legally accountable for implementing the funding agreements; and 2) with the capability of raising matching funds which is an indicator of the long-term viability of the agency.

One application per agency

Each agency is limited to one application. This policy is intended to: 1) spread these funds among more agencies; 2) assure the suitability and quality of applications by having the agency focus and risk their efforts on one application at a time; and 3) lower the administrative burden by reducing the number of applications of marginal value. Given the benefits flowing from cooperative efforts among agencies, applications that are the product of the efforts of more than one agency will be attributed only to the agency acting as the fiscal agent.

$1,000 Minimum Dollar Amount for Request

This is a competitive funding program involving many hours on the part of staff and the committee members deliberating upon and monitoring proposals. The $1,000 minimum amount was chosen as a good balance between the work expended and the benefits gained from awarding these small grants.

Funding Agreement – Reimbursement of Funds –Expenditure Before End-of-the-Year

The Housing and Neighborhood Development (HAND) Department has been monitoring the funding agreements since 2001. In order to be consistent with the practices it employs in monitoring CDBG and other funding programs, the funding agreements provide for a reimbursement of funds. Rather than receiving the funds before performing the work, agencies either perform the work and seek reimbursement, or enter into the obligation and submit a request for the city to pay for it.

And, in order to avoid having the City unnecessarily encumber funds, agencies should plan to expend and verify these grants before December of the year the grants were awarded, unless specifically approved in the funding agreement. Please note that funds encumbered from one calendar year to the next cannot be reimbursed by use of the City's credit cards.

From: **____ Chair of the Jack Hopkins Social Services Funding Committee,**
                   Bloomington Common Council
Re: **Invitation to Apply for Social Services Funding**
Date: **March ___ 2007**

The City of Bloomington Common Council's Jack Hopkins Social Services Funding (JHSSF) Committee announces that it is accepting applications for use of $145,000 in social services funds. This figure includes an added $10,000 dedicated by the Mayor and Common Council for the 2007 fiscal year. So far, the Committee has allocated more than $1 million to agencies who provide services to needy residents. In the past, the Committee has funded initiatives such as: construction of a public health facility, acquisition of land for a transitional living facility, fixing a collapsed foundation for a recovery program, equipment for a food bank, and materials for a teen parenting project.

The Committee is composed of five members of the Common Council and two members representing City entities. This year, the Committee's Council representatives are: Mike Diekhoff, Tim Mayer, Andy Ruff, David Sabbagh, and Susan Sandberg. Dr. Anthony Pizzo from the Community Development Block Grant Citizen Advisory Committee for Social Services and Hans Huffman from the Community and Family Resource Commission complete the Committee.

The JHSSF program allocates funds based on the criteria described below. It is <u>key</u> that any proposal satisfy these criteria if it wishes to be considered for funding. To be eligible, a program must:

- **Address a previously-identified priority for social services funding** (as indicated in the *Service Community Assessment of Needs* (SCAN)[1], City of Bloomington, Housing and Neighborhood Development Department's *2005-2010 Consolidated Plan*[2] or any other community-wide survey of social service needs). Such priorities include basic services (food, shelter or healthcare) or other services to City residents who are: low-moderate income, under 18 years old, elderly, affected with a disability or are otherwise disadvantaged; and

- **Propose one-time funding & fiscal leveraging**

  1. **One-time investment in a social service initiative**
  The Committee aims to encourage innovative projects and to address changing community circumstances. Therefore, an agency should not rely on JHSSF from year-to-year to fund on-going costs (e.g., personnel). In some circumstances, the Committee may fund an agency's operational costs where the agency seeks funding for a pilot project or can clearly demonstrate that an existing program has suffered significant funding loss and requires "bridge" funds in order to continue for the current year. Applications for "bridge funding" are not encouraged; and

  2. **Leverage matching funds or other fiscal mechanisms** (e.g., in-kind contributions, collaborative partnerships, etc.) to maximize JHSSF dollars; and

- **Make a broad and long-lasting contribution to our community**
  As co-founder of the JHSSF program, Jack Hopkins put it: " [P]riority should be given to projects or programs where investments now will have a positive, long-term spillover effect (such as reduced susceptibility to…diseases, decreased absences from school, reducing lost time from work, [alleviating the effects of poverty]…etc.). Historically, this criterion has excluded funding events or celebrations.

Additionally, any application must also meet the following requirements:

- The program for which funding is sought **must primarily benefit City residents**; and

- The application must request a **minimum of $1,000** for JHSSF; and

- The applicant must be a **501(c)(3)** (or be sponsored by one). In the event the applicant is not a 501(c)(3) but is sponsored by one, the sponsoring agency must provide a letter acknowledging its fiscal relationship to applicant. (Know that the Committee may request further information about this relationship); and

- **One application per agency**. The Committee encourages cooperative efforts among agencies; however, know that these cooperative applications will be attributed to the lead agency, serving as fiscal agent.

How to apply

Any agency applying for JHSSF funds must submit an application package that includes the following:

- A **two-page proposal** that includes:
  - The Mission of your Agency
  - Nature of Project
  - Amount Requested
  - A description of how your proposal satisfies *each* of the above-listed criteria; and
- The attached **information sheets**; and
- **A simple program budget** detailing all funding sources for the program; and
- A **year-end financial statement** for the agency providing both fund balances as well as total revenue and expenditures; and
- Signed, **written estimates** should accompany all requests **for the funding of capital improvements**.

35 Applications for Jack Hopkins Social Services Funding Grants With Summary Table Enclosed

We received 35 applications for the Jack Hopkins Social Services Funds by the 4:00 p.m. deadline on April 10th, 2006. This year we have $135,000 available for grants and a total request of approximately $268,019 from these agencies. This packet contains the: 1) cover memo; 2) table of contents – with applicant requests and total; 3) applicant requests – in order of amount requested; 4) summaries; and, 5) applications with most of the background materials *(please note that some of the inessential materials were not distributed in order to save space).*

Meeting to on Thursday, April 27th at 5:00 p.m. in the McCloskey Room to Discuss and Decide What Applications Merit Presentations

The Committee will meet on Thursday, April 27th at 5:00 p.m. in the McCloskey Room to share impressions about the applications, decide which applications merit presentations, and raise questions for them to address on Thursday, May 11th. Committee members should also disclose any conflicts of interest (see below). This would also be a good time to talk about how you will approach the allocation of funds and the information you need from agencies in order to make a well-informed decisions regarding partial funding of requests.

Conflict of Interests

Please be prepared to disclose any special relationships that you, your spouse, or dependents may have with any of the agencies seeking funds. The term "special relationship" is vague, but is intended to include those relationships that would give the appearance of impropriety if left undisclosed. In the past, members of the committee have disclosed those relationships at the first meeting, declared their intent to participate fairly, objectively and in the public interest given this relationship, and have participated in the relevant votes. The committee may adopt other restrictions on participation at this meeting. Please share your thoughts.

Project   **Disaster: Food, Shelter & Clothing**

City Residents Served. 15 (of 30).

Mission

The American Red Cross (ARC) is a volunteer, international, humanitarian organization, which helps people prevent, prepare for and respond to emergencies. It is the only non-governmental agency given responsibility under federal, state, and local emergency plans to respond to emergencies and natural disasters. The local chapter has worked continuously since 1917 and provides services such as food, shelter, and clothing for families involved in fires, floods, storms and tornadoes. Through these services ARC offers hope in time of desperate need.

Project

ARC requests $5,000 in bridge-funding to provide vouchers to purchase new clothing, groceries, lodging, essential medications, bedding, furnishings, and other items to households faced with fires, natural disasters, and other emergencies. This amount would provide a week's worth of necessities for 30 individuals (@ $166 per person) or for five families of four persons (@ $950 per family). (See Program Budget for the kind, price, and guidelines for use of these items.) ARC requests this bridge-funding because their regular donors have redirected their usual local contributions to help with a series of well-known disasters handled by the national and international divisions. This diversion of anticipated revenues led to a shortfall of $25,000 in 2005, which should be recovered in future years when donations return to prior levels.

Criteria

Need. The SCAN identifies the need for providing shelter, food and clothing in the event of a fire or natural disaster and acknowledges the services provided by ARC at those times.
One-Time Investment. This is a request for bridge-funding, which is explained above. (See Project)
Fiscal Leveraging.   This organization is largely funded through donations and operates with the help of many volunteers.
Broad and Long-Lasting Benefits. ARC provides immediate assistance to victims of disasters which alleviates the initial trauma and makes it easier for them to restore their disrupted lives.

Cost

Total Project Cost	$5,000

Sample Funding Agreement

FUNDING AGREEMENT
CITY OF BLOOMINGTON - JACK HOPKINS
SOCIAL SERVICES PROGRAM

«Agency_Name»

This Agreement entered into on _____, 2007, at Bloomington, Indiana, between the Common Council of the City of Bloomington, Indiana, hereinafter referred to as the "City," and «Agency_Name», hereinafter referred to as the "Agency," provides for the following:

Whereas,   the Jack Hopkins Social Services Program Funding Committee (Committee) reviewed Agency applications, heard their presentations, and made funding recommendations to the Common Council; and

Whereas,   the Common Council adopted Resolution 07-0X which provided funding to this Agency in the amount and the purposes set forth in Section 1 of this Agreement; and

Whereas,   the resolution also delegated the duty of interpreting the funding agreement for the City to the Chair of the Committee; and

Whereas,   in interpreting the Agreement, the Chair may consider the purposes of the program, the application and comments by Agency representatives, and statements made by decision-makers during deliberations;

NOW, THEREFORE, THE PARTIES AGREE AS FOLLOWS:

I.   USE OF FUNDS

Agency agrees to use Agreement funds as follows:

        «Project_Description»

        «Other_Provisions»

II.   TIME OF PERFORMANCE

The last claim for expenses under this Agreement must be filed before «Deadline». Upon request from the Agency, the deadline may be extended by the Housing and Neighborhood Development Director of the City for good cause no later than April 4, 2008.   Said request must be submitted in writing at least two weeks prior to the deadline set forth the first sentence or as extended by the Housing and Neighborhood Development Director.

I:\common\CCL\SSF\SSF2007\Funding Agreements\SSFAGREE - TEMPLATE - 2007 - 022007.doc

III.   PAYMENT PROCEDURES

It is expressly agreed and understood that the total amount to be paid by the City under this contract shall not exceed $«Received». Claims for the payment of eligible expenses shall be made against the items specified in Section I, Use of Funds.

«Salaries»

The Agency will submit to the City a claim voucher pursuant to City's claim procedures and deadlines for the expenditures corresponding to the agreed upon use of funds outlined above. Along with the claim voucher, the Agency will submit documentation satisfactory to the City, at the City's sole discretion, showing the Agency's expenditures.

The Agency agrees to make its best efforts to submit claims on a monthly basis and also agrees to submit claims for its June, July, and August expenditures no later than the end of September and to submit claims for its September, October, and November expenditures no later than December 1, 2007.

IV.   ADMINISTRATIVE REQUIREMENTS

A.   Accounting Procedures

The Agency agrees to use generally accepted accounting procedures and to provide for:
(1)   Accurate, current, and complete disclosure of the financial component of its activities;
(2)   Records which identify adequately the source and application of funds for City supported activities;
(3)   Effective control over and accountability for all funds, property, and other assets.
(4)   Adequate safeguarding all such assets and assurance that they are used solely for authorized purposes;
(5)   The City to conduct monitoring activities as it deems reasonably necessary to insure compliance with this Agreement; and
(6)   Return of the funds received under this Agreement that the City determines were not expended in compliance with its terms.

B.   Access to Records

The Agency agrees that it will give the City, through any authorized representative, access to, and the right to examine, all records, books, papers or documents related to the funding provided by this Agreement, for the purpose of making surveys, audits, examinations, excerpts, and transcripts.

C.   Retention of Records

The Agency agrees that it will retain financial records, supporting documents, statistical records, and all other records pertinent to the funding provided to the Agency for a period of three years from the termination of this Agreement pursuant to Section VII or VIII.

V.   GENERAL CONDITIONS

A.   Independent Contractor

Nothing contained in this Agreement is intended to, or shall be construed in any manner, as creating or establishing the relationship of employer/employee between the parties. The Agency shall at all times remain an "independent contractor" with respect to the services to be performed under this Agreement. None of the benefits provided by an employer to an employee, including but not limited to minimum wage and overtime compensation, workers' compensation insurance and unemployment insurance, shall be available from or through the City to the Agency.

B.   Hold Harmless

The Agency shall hold harmless, defend and indemnify the City from any and all claims, actions, suits, charges and judgments whatsoever that arise out of the Subrecipient's performance or nonperformance of the services or subject matter called for in this Agreement.

C.   Nondiscrimination (for agencies receiving grants in excess of $10,000)

Agencies receiving grants in excess of Ten Thousand Dollars ($10,000) shall be subject to the following provision in accordance with Section 2.21.070 of the Bloomington Municipal Code. The Agency will not discriminate against any employee or applicant for employment because of race, color, creed, religion, ancestry, national origin, sex, disability or other handicap, age, marital/familial status, or status with regard to public assistance. The Agency will take affirmative action to insure that all employment practices are free from such discrimination. Such employment practices include but are not limited to the following: hiring, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. The Agency agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the City setting forth the provisions of this nondiscrimination clause.

VI.   NOTICES

VII. TERMINATION OF AGREEMENT

The Agency agrees that this Agreement is subject to the availability of funds and that if funds become unavailable for the performance of this Agreement, the City may terminate the Agreement. If funds become unavailable, the City shall promptly notify the Agency in writing of the termination and the effective date thereof.

It is further agreed that the City may terminate this Agreement in whole or in part if it determines that Agency has failed to comply with the Agreement or with other conditions imposed by applicable laws, rules and regulations. The City shall promptly notify the Agency in writing of the determination and the reasons for the determination, together with the effective date. The Agency agrees that if the City terminates the Agreement for cause it will refund to the City that portion of the funds that the City determines was not expended in compliance with the Agreement. The Agency shall be responsible for paying any costs incurred by the City to collect the refund, including court costs and reasonable attorneys' fees.

If any provisions of this Agreement is held invalid, the remainder of the Agreement shall not be affected thereby and all other parts of this Agreement shall nevertheless be in full force and effect.

VIII. TERM OF AGREEMENT

Unless terminated as provided in Section VII herein, this Agreement shall terminate upon the City's determination that the provisions of this Agreement regarding use of the Agreement funds have been met by the Agency.
